

Fuzzy Poi Guide

Welcome to the wonderful world of poi spinning!

These fuzzy poi are a great way to begin your poi journey. They are made with recycled tennis balls and covered with fluffy, epically delightful furry covers that cushion and slow down your poi to help with learning.

If you're interested in free poi lessons, we recommend checking out playpoi.com, or feel free to email us and we can send you more recommendations.

Once you're ready for the next step, we think you'll love podpoi - they're the world's favorite LED poi for many reasons - beautiful design, many customizable modes, cushy on impact, wireless control, and much more.

KNOB & LEASH

Your fuzzy poi come with adjustable **knob-leashes**: comprising a pair of silicone uni knob handles and poi cord leash.

ADJUSTING THE LENGTH OF YOUR LEASH

Adjusting your leash to fit your body and style is an important step to optimizing your poi experience. A popular length is from your hand to your shoulder.

Fuzzy poi are designed to work with adjustable knob-leashes for the slickest connection possible, free of hardware that might interfere with your poi spinning:

- untie the knot at the knob handle
 - move the knob to get to your desired length
 - tie a simple overhand knot to secure the cord
 - ensure both of your leashes are the same length
 - for each leash, tighten the knot, then cut excess leash above it
 - melt the end until it becomes a substantial disk of melted cord, so the knot won't pull through.
- > **Tip:** practice melting on the extra cord first!
- let cool, pull the cord tight and enjoy many moments of joy with your poi!

After adjustment, all excess leash-cord should be removed, leaving only a small melted tip that secures the knot.

We hope you love your poi journey - have fun and learn lots!
