kaizen :: base :: hex

BS-HX

flowtoys

ALL bases come with the following wall mounts & hardware: *please see video instructions*

4X *anchor*

4X *screw*

4X *spacer*

1X *sandpaper*
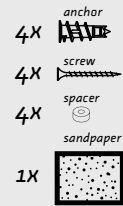

General mounting guidelines:
• choose a hole that is above a slot
• if a screw is below a slot, you won't be able to put a bracket in that slot
• see recommended holes for strength & stability, denoted in circles
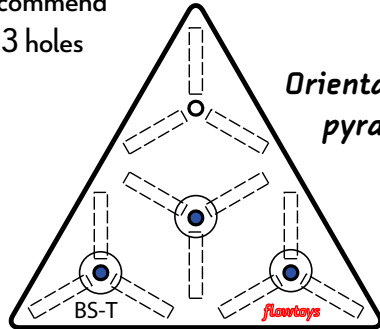

kaizen :: base :: diamond

3 recommended mounting points

4th hole optional for extra strength

BS-D

flowtoys

kaizen :: base :: triangle

If you're using the center slots
e.g. for deep hook, big hook, single mounts
we recommend
these 3 holes

Orientation ::
pyramid

BS-T

flowtoys

If you're using outer slots,
e.g. for 3 fork, 5 fork, 3 round,
we recommend these 2 holes

BS-T

flowtoys

Orientation ::
upside down pyramid

Recommended for big hook, deep hook
for extra strength and for deep hook to be more centered
